deadly struggle which had taken place, tion promulgated a decree declaring Fitt the enemy of the human race."

Now it is perfectly easy to understand how the convention, which was as mad as a March hare, could have been guilty of such a puerile imbecility in 1793, but why any Frenchman making up a calenland the bondholders in the financial dar should have chosen to perpetuate centres foreseeing the stringency in the of August, 1889, passes comprehension,

THE GREAT EXPOSITION. Speaking of 1793, I believe that was the year of the first industrial exposition that the line of beautreached the reviewing stand on Grand tion the world ever saw—one of the innumerable products of the amazing intellectual ferment which marked the marked the same of the same of the number of men who passed that point places it at 35,000. A noticefinal decade of the eighteenth century beauty is of that enduring sort that able incident of the parade was the enin France; and oddly enough it was the conceit of a poet. Even more curious still, it was opened and for several years fits successors likewise, on the very Champ de Mars which is the scene of the truly-wonderful exposition of today.

Of this great bazaer of the nations it is difficult to speak without apparent exaggreration. Everything about it is personally a veteran in the ranks would services, conducted by nine Bonzes, will stimulated the speak will a possible of the universality of this exposition than any description. Next Toesday a Buddhist temple and Buddhist conducted by nine Bonzes, will occasionally a veteran in the ranks would services, conducted by nine Bonzes, will occasionally a veteran in the ranks would services.

ranged on a plan perfectly unique. Nominally the price of each is one france MRMPHIS, TENN., August 27.—Passenger-Agent Williams, of the Memphis been here has never surpassed seventy centimes or fourteen cents. This is how

REMARKABLE TICEST SCHEME, Each ticket of entry has attached a ottery-ticket, and on the last day of every month a drawing takes place, when large money prizes are distributed But this lottery-coupon may be and usually is detached, so that the one franc s composed of two separate factors. Now the Credit Lyonnaise, an immense banking establishment, has undertaken the distribution of the tickets, and its credit is such that it has been able to place the tickets on the stock list, and they are bought and sold on the Bourse like railroad and other securities, and the Bourse or Stock-Exchange price determines daily the cost of tickets. If from any cause—the nearness of the day of drawing, the comparatively small number of tickets sold, &c., the lottery cou-pons advance in price the entry part of tery coupons sell on the Bourse at five the entry portion that day will cost you fifteen cents. If on the other hand coming themselves perjurers, go upon the lottery coupons should ever reach the witness-stand and tell anything about it. Only two of the accused are thus cost you six cents. Many large establish that the control of the control of the cost you six cents. lishments buy great quantities of the tickets and give them away to customers who purchase a certain amount of goods. The Louvre, one of the three chief drygoods houses of Paris, gives also free tickets to all its customers to its gorgeous excursion steamers which ply the eastern part of the city and the Exposition. And thus in every way the

The American contribution is simply humiliating. Take away Edison's department and the rest scarcely deserves mention. You have probably heard much of Tiffany's display but it is not comparable to many others here. The most the best appearance of any post in the conspicuous object in the American sections and were conspicuous for their solonspicuous object in the American section is an unsightly pyramid covered with Waterbury watches arranged with mathematical precision in horizontal layers! Ahead of the world in agricultural implements our show is the worst, tion of Eighth street and Grand avenue so with metal work, machines, and tools. In mechanical dentistry and surgery we are approached by no nation, but there background and the brilliant decorations is not one exhibit in our section. In forest wood only some tropical nation as side lights, the great seething mass can equal us in beauty and none can in presented a panorama which no one who variety, but every exhibiting nation surpasses us. In textile fabrics, in glass-was grand and imposing, and how gay it ware, even in arms, our country is either all looked withal. Another impototally unrepresented or so inadequately as to excite dension. And yet Congress oted nearly twice as much as any other legislature in the world to assist the American exhibit! Let us hope that this neglect may not bring its revenge in

Let me describe briefly one wonder of

the Exposition. This is a terrestrial globe, which is exactly one-millionth the size of the earth. Its circumference is cheering humanity. One not accustometers, or about 133 feet, its diameter tomed to see such gatherings would about 40 feet. The globe weighs 13 be likely to make a very wild tons and is turned easily on its axis by one man. A house had to be built by one man. A house had to be built ber of people on the streets during the for it, around whose interior walls a parade. Down Grand avenue from Fifth spiral inclined way has been constructed. Sou go up to the top of the house in an one could stand or sit was taken. Every way, thus in turn seeing every portion of the globe. The latest geographical discoveries are all marked, the courses of As to the great "show" itself my inability to give any description in a letter will perhaps best be indicated when I tell you that there are already fourteen "guides" published, aggregating more discoveries are all marked, the courses of the principal lines of navigation laid down, the verying depths of seas indicated by shades of the blue with which the oceans are painted, the principal lines, the lines of navigation laid down, the verying depths of seas indicated by shades of the blue with which the oceans are painted, the principal lines of navigation laid down, the verying depths of seas indicated when I tell you that there are already fourteen cival railway- and telegraph-lines, the Score- the principal lines of navigation laid down, the verying depths of seas indicated when I tell you that there are already fourteen cival railway- and telegraph-lines, the Score- tell marked, the course of the principal lines of navigation laid down, the verying depths of seas indicated when cated by shades of the blue with which the oceans are painted, the principal lines of navigation laid down, the verying depths of seas indicated when cated by shades of the blue with which the oceans are painted, the principal lines of navigation laid down, the verying depths of seas indicated when cated by shades of the blue with which the oceans are painted, the principal lines of navigation laid down, the verying depths of seas indicated when cated by shades of the blue with which the oceans are painted, the principal lines of navigation laid down, the verying depths of seas indicated when cated by shades of the blue with which the oceans are painted, the principal lines of navigation laid down, the verying depths of the principal lines of navigation laid down, the very laid the principal lines of navigation laid down, the very laid the principal lines of navigation laid down, the very laid the principal lines of navigation laid down, the very laid the principal lines of navigation laid down, the very laid the principal lines of nav

To Witness the Grand-Army Parade.

MILWAUKER, August 27.—This morning the cities and towns of the State defence, entitled "To the People, My Only Judge," But before I could complete the trade a policeman laid his hand on the vendor of "defences," relieved him off is bundle of papers, and marched him off to the station-house. So I am unable to tell you the last word of the brave General to the condemnation which was vesteriary propagation, the station of the condemnation which was vesteriary propagation, the station and vigorous turf is sward whose clean and vigorous turf is vesteriary propagation, the station are supposed in the station and the station and the station and the station are supposed in the station and the station and the station and the station and the station are supposed in the station are supposed in the station and the station and the station are supposed in the station are supposed in the station and t tween 7 and 9 o'clock this morning. less than two months, voted, and left it There was little more disorder in finding again almost immediately. Fleming now quarters than there was yesterday mornhas a plurality of twenty-two, and when these illegal votes are thrown out will ing, as attention was centred on the parade, but most of the arrivals managed have at least three hundred. to find their quarters and get in place in Messrs. Ward and Guy, of the Local Board of Steamboat Inspectors, left this morning by the Chesapeake and Ohio railway for Eichmond to inspect the tugs Olive Branch, O. A. Arnold, and Carrie May.

A FARCE OF A TRIAL.

To an outsider a lamer and more unsupported accusation than that launched for three days of last week against Bourarilway for Eichmond to inspect the tugs Clive Branch, O. A. Arnold, and Carrie May.

A FARCE OF A TRIAL.

To an outsider a lamer and more unsupported accusation than that launched the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the beautiful possible with the column. On every vacant spot in the most busy streets post-commanders could not palm from the Alps, side by side with the Column. On every vacant spot in the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the beautiful worn of the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the beautiful worn of the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the beautiful worn of the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the beautiful worn of the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, which is the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, which is the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, which is the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young chestnuts from the Mexican cactus, cedars from Libsus, palms from Algeria and Egypt, young ches time to move with the column. On A Methodist Minister Becomes Insane, Special telegram to the Dispatch.I
WITHELING, W. VA., August 27.—A
sensation was created in denomination sensation was created in denomination circles to-day by the announcement that Rev. M. F. Dryden, the leading Methodist minister in this section, had sudden-ly become insane. Mr. Dryden made a violent assault on his wife this morning. large. Ransom Post, St. Louis, numbered more than any before the column In the County Court of Henrico yesterday judgment was rendered in favor
of J. C. Carpenter & Co. against C. F.
Belvin for \$2,362.65\$. Carpenter & Co.
